

# 2nd Position Composing Sheet.

Play the notes below in 2nd position. Compose a piece of your own using only these notes. You may choose rhythms to suit yourself as long as they fit the time signature. When you have finished give it a title and learn to play it in time for the next lesson. Have fun!!

Extension work - When you have played your tune. Try to add some open bass notes A, D or E that harmonise. Listen as you go along so that you make some nice chord progressions.

A major scale
